

Schizophrenia Awareness (Half day)

BACKGROUND:

Schizophrenia is a severe mental illness with a range of symptoms. It affects around 1 in 100 people at some point in their lives. Supporting people with schizophrenia may be challenging because often it affects the way a person thinks and behaves. This course is designed to support you with some of the challenges.

TARGET GROUP:

All staff members working with individuals who have a diagnosis, or, who may have schizophrenia.

COURSE AIM:

This half day course aims to provide an awareness by improving your knowledge and skills to enable you to work effectively with someone you support who has schizophrenia.

LEARNING OUTCOMES: Following the training delegates will feel more confident in the following areas;

1. Understand what schizophrenia is
2. Understand the key symptoms and causes of schizophrenia
3. Have increased knowledge of the types of schizophrenia
4. The risk factors associated with schizophrenia
5. Better knowledge of the role of treatments available
6. Strategies to support and better communicate with individuals you work with

ORGANISATIONAL BENEFITS:

When staff are supported and receive training to support them in their role, the impact on their confidence and ability to deliver the service can only be positive, they feel valued and retention is improved along with good practice.

For 12-14 people, at your venue
